EDBRIME
OIL & GAS LTD.

EDBRIME OIL & GAS LTD is designed to meet the growing and changing needs of the Nigerian Oil and Gas Industry. It is a registered company in Nigeria under the Companies and Allied Matters Act of 1990, with **RC No 1455064**. We are wholly indigenous and registered company with passion to meet the teaming challenges in the area of ours.

EDBRIME OIL & GAS LIMITED has pedigree and competence in the area of:

- Civil/Electrical/Mechanical Engineering works
- Procurement and General Contracts
- Surface Protection (Corrosion Control)
- General Maintenance
- Tank Cleaning and Rehabilitation
- Oil and Gas Inspection Services
- Process Control and Instrumentation
- Overhaul Installation and Commissioning Services
- Vessels, Marine & Logistics.
- CCTV Security surveillance
- Intrusion Detection System
- Car and Heavy duty Equipment Hiring Services.
- International Trading (Import & Export)
- Lifting and Offloading of Petroleum Products

With our constant research on innovations and technological development ranking with the world Standard, we put our customers/clients Requirement band specification at top priority.

Nevertheless, we stand to uplift a good reputation for integrity, Reliability and service Excellence in all our projects. With our dedication to the satisfaction of our customers/clients, we earn a distinctive position in the Oil and Gas industry.

Our products and services are HIGHLY EXPEDIENT for:

1. Oil and Gas
2. Military/Government facilities
3. Marine Services
4. Industrials' Complexes Warehouses

Irrespective of all, we have a dedicated team of certified professional experts who have technological knowledge; having its own team of specialists, who actively and seamlessly pursue new technologies, market research, share and combine knowledge with resources to enrich and provide our customers/clients with the much-desired results.

OUR VISION

To become a Global, Successful and Respected Oil and Gas Servicing Company with Efficient and Quality Service Delivery.

MISSION STATEMENT

Protecting and providing International quality standard services to Oil and Gas sector through our corporate service delivery.

OUR POLICIES

EDBRIME OIL & GAS LIMITED takes an active role in staff development and training with a well-established and effective career structure designed to identify and promote people with talent. We maintain a policy of non-discrimination, affording equal opportunities to all employees. As a result, we have a high proportion of long service staff on whose capability and experience we rely upon.

The Company places paramount importance on industrial harmony and good working relationship with host communities by:

- Maintaining good relationship with the community in which we work at all times.
- Participating to the best of our abilities in their development programs.
- Respecting their culture and tradition by obeying and paying attention to their laws customs.
- Carrying out our operations in such a manner that minimizes negative impact on the environment.

We believe in the following principles:

- A job well done only when it is carried out safely.
- All accidents and injuries can be prevented
- Safety is everybody's business.
- Safety must not be sacrificed for the sake of expediency.
- Achieving safe operations is a number one priority.

HEALTH, SAFETY & ENVIRONMENT (HSE) POLICY

EDBRIME OIL & GAS LIMITED puts Safety first and never compromise Quality.

We recognise that everyone's interest is best served when health and safety become an integral part of our operations, not necessarily because it is required but also because we want to. It is therefore no surprise that we have excellent safety records throughout our entire operation.

Our Operational Efficiency is defined as “the systematic management of process safety, personal safety and health, the environment, reliability, and efficiency to achieve top performance.” It is based on five key objectives.

HSE VISION AND OBJECTIVES

- Achieve an incident- and injury-free workplace.
- Promote a healthy workforce and mitigate significant workplace health risks.
- Identify and mitigate environmental and process safety risks.
- Operate with industry-leading asset integrity and reliability.
- Efficiently use natural resources and assets.

QUALITY POLICY

Our key objectives are to bring our processes into compliance with the ISO 9001 Quality Management Standard, for which we have been certified since.

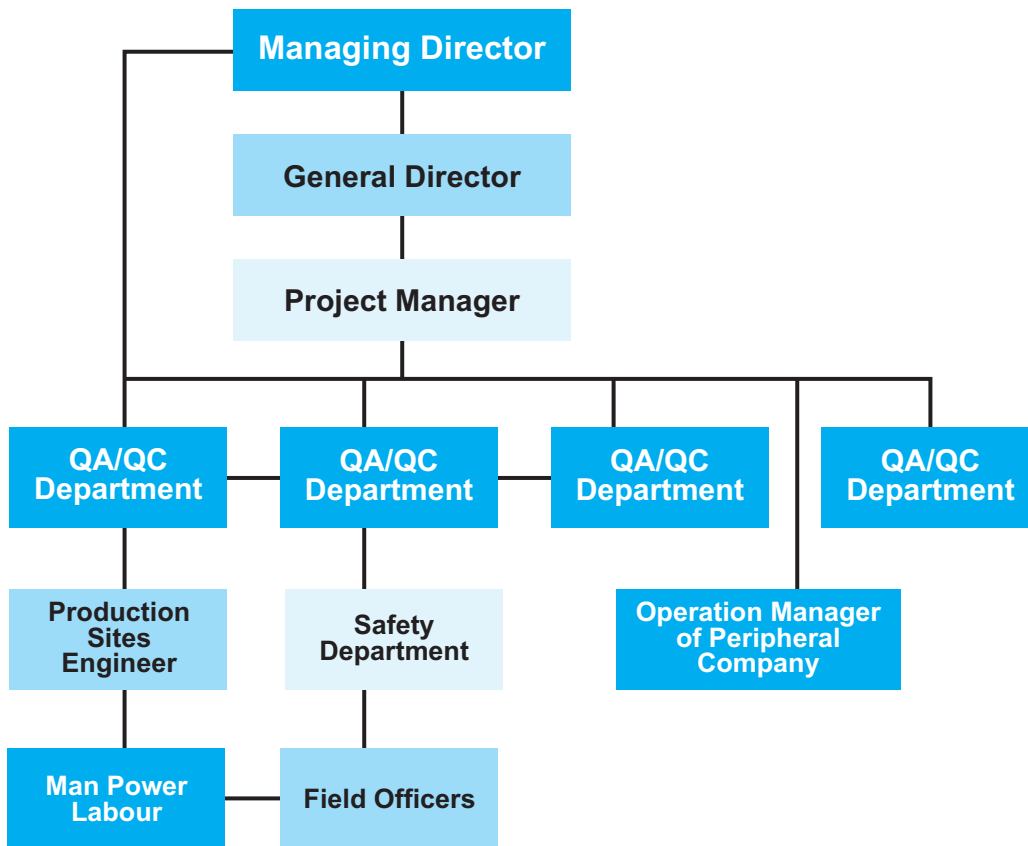

Our Total Quality Management system is a permanent feature of life at Edbrime Oil & Gas Limited, with all employees at all levels ensuring that activities are in line with our Quality policy.

ENVIRONMENTAL MANAGEMENT

Our high level of environmental awareness ensures a pleasant working environment and good relations with our neighbours, hence intensive efforts towards sustainable development and environmental management.

OPERATIONAL ORGANIZATION CHART

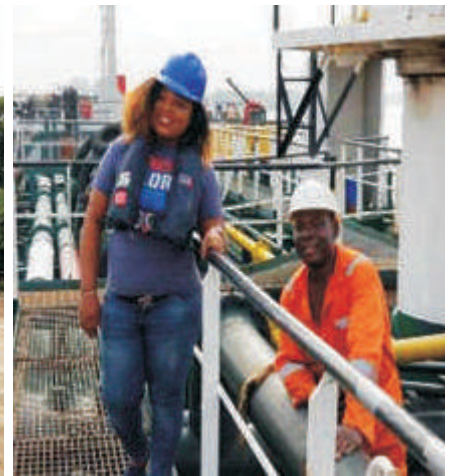

OUR SERVICES

CIVIL/ELECTRICAL/MECHANICAL ENGINEERING WORKS

EDBRIME OIL & GAS LIMITED has wealth of experience, highly qualified personnel and full range of equipment to carry out quality works and on schedule. EDBRIME OIL & GAS LIMITED handles construction of residential building to highly technical maintenance works from scratch to finish. EDBRIME OIL & GAS LIMITED also carries out Welding and fabrication works of steel structures, pipeline and piping installation. We engage qualified welders and fabricators and use the right equipment to accomplish tasks in line with relevant project codes and specifications.

PROCUREMENT AND GENERAL CONTRACTS

We are original equipment manufacturers' distributor for a variety of world-class oil industry products and equipment and offer post installation after sales service with provision for in country stock holding/inventory for prompt or just-in-time delivery of critical service spares. We have the reach and means to procure materials from around the globe through a wide supplier network worldwide.

SURFACE PROTECTION (CORROSION CONTROL) AND GENERAL MAINTENANCE

EDBRIME OIL & GAS LIMITED are experts in all activities relating to cleaning, surface preparation, coating and environmental protection. We work with all types of metals, including carbon steel, stainless steel, alloy steels, aluminum and brass. Our expertise covers both traditional abrasive and high pressure hydro blasting.

True surface protection requires not only blasting and coating but also proper steel preparation prior to coating. Rust Control Limited uses state-of-the-art equipment in order to get perfect results. We own an extensive inventory of equipment including semi-automated propriety systems enabling us to undertake surface preparation by means of UHP water jetting (Hydro-blasting), abrasive (wet and dry) blasting and mechanical methods including dust-free and recyclable options. Once prepared, we can apply a range of coating and composites including industrial epoxies, alkyds and urethane, non-slip decking and coatings, screeds and tiles, tank and vessel linings and anti-fouling coatings by means of conventional spray, airless spray or manual brush roller application as appropriate integrity.

TANK CLEANING & COATING

Chemical cleaning is a surface treatment operation employed in the cleaning of carbon steel in order to remove impurities such as rust (scales), stains and inorganic contaminants. Tank coating is a sophisticated and challenging skill that requires precision, perfect coordination and long-term experience. True surface protection requires not only blasting and coating, but also proper steel preparation prior to coating. Rust Control Limited has an established track record for coating projects professionally, on schedule and without any major problems or complaints. We have access to one of the largest and most comprehensive pools of tank coating equipment worldwide, and use state-of-the-art equipment to deliver perfect results for our clients.

OIL AND GAS INSPECTION SERVICES

EDBRIME OIL & GAS LIMITED has a history of servicing the onshore and offshore sectors with professionalism and long safety records, performs a wide range of onshore and offshore NDT and DT inspections. We specialize in maintenance inspections performing non-destructive testing (NDT) inspection on all down-hole drilling inventory ranging from OCTG & drill pipes, crown to the drill bits. We utilize state-of-the-art equipment and highly trained technicians. All our Inspectors are API certified with a multi-disciplined approach, all from a vast selection of disciplines in the Engineering Industry

PROCESS CONTROL AND INSTRUMENTATION

EDBRIME OIL & GAS LIMITED is a representative and distributor of some of the biggest names in flow control and instrumentation worldwide. We provide hose assembly and crimping services from our certified workshop.

Our products include a range of quick disconnect couplings, manifolds, 2-3-4 way ball valves, high pressure relief valves, check valves, needle valves, choke valves, gate valves, as well as fire and industrial hoses:

- Check valves
- Gate valves
- Relief valves
- Needle valves
- Ball Valves
- Choke Valves
- Regulators
- Fittings
- Tubing
- Quick disconnect coupling
- Mechanical seals
- Hoses

We also specialize in supply and installation of process

control instrumentation products and electrical products. We undertake the following in the electrical fields in both the Hazardous and non-hazardous environment.

- General refurbishment of electrical installations in production platform.
- Upstream Process Systems and Process Control & Instrumentation Engineering, Mechanical & Piping Engineering.
- Refurbishment flow lines, onshore/offshore process facilities and other rotating equipment electrical or mechanical.
- Provision of AutoCAD drawings services for your existing systems and electrical wiring diagram. This will allow you to know shutdown requirements and save time and manpower during maintenance.
- Installation of transformers, distribution and control panels.
- Laying of steel conduits and cable trays

- Laying of cables for lighting, switching and controls for Navigation
- Maintenance of same in an existing installation.
- Maintenance of Motor control centres in switch gears
- Installation and maintenance of Cathodic protection in above-ground and under-ground pipes and vessels using magnesium oxide as sacrificial anodes or other modern technologies in use.
- We provide extensive services in Process control, instrumentation and electrical fields.
- Provision of AutoCAD drawings services for existing systems and electrical wiring diagram. This will allow you to know shutdown requirements and save time and manpower during maintenance.
- Installation and maintenance of differential pressure gauges, temperature and pressure transmitters on delivery and flow lines.
- Installation of instrument and control panels, annunciation panels, etc.
- Installation and maintenance of differential pressure gauge pressure and temperature, transmitters, on delivery and flows lines
- Recorders, controllers on metering skids
- Fire detection and alarm synchronizing system
- Telemeter equipment, solenoids, relays
- Calibration and recalibration of instruments
- Supply of valves and accessories.
- Corrosion Control Services
- High Pressure (HP) and Ultra High Pressure (UHP) Hydro-blasting
- Corrosion survey and risk assessment
- Corrosion control in Process systems
- Protection coating and relocating
- Plant and tank cleaning
- Pipeline and storage tank maintenance
- High Pressure (HP) and Ultra High Pressure (UHP) Hydro-blasting – Ultra bar 10E UHP

OVERHAUL INSTALLATION AND COMMISSIONING SERVICES

EDBRIME OIL & GAS LIMITED offer the best and most affordable support with our Site Service team available to provide high quality support services as and when required, provide technical support and after-sales services that are in line with our expertise with backup from OEM Partners across the globe.

Our experts provide a depth of experience in all aspects of onsite services including but not limited to the following:

- Overhaul of Rotating Equipment
- Installation Services
- Pre- commissioning/Testing of installed plants
- Commissioning & Start-Up assistance
- Equipment Condition & Maintenance Surveys
- Optimization of Plant Efficiency
- Overhaul & Repair

VESSELS, MARINE & LOGISTICS

EDBRIME OIL & GAS LIMITED has an enviable reputation for the effective delivery of large and highly complex marine projects for its customers. We also lease and maintain equipments used at sea and on board sea vessels like boats, ships etc.

CCTV SECURITY SURVEILLANCE/INTRUSION DETECTION SYSTEM

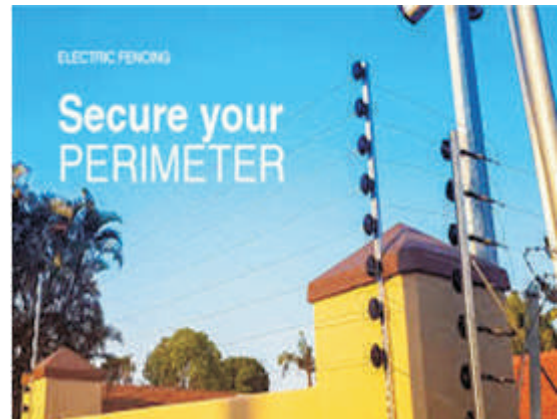

EDBRIME OIL & GAS LIMITED supplies, install, test and commission CCTV Surveillance System. We deliver a high performance managed surveillance services with 24/7/365 availability. We intend to meet the customer requirement, and in doing so, to complement and enhance the existing security arrangements. Our security and surveillance system has the following objectives:

- Deter theft/vandalism
- Detect suspicious activity and monitor with real-time from anywhere.
- Deter opportunist malpractice
- Aid fire detection and safety
- Prevention of intrusion 1000 meter range
- Protection of property perimeter and persons

EDBRIME OIL & GAS LIMITED carries out CCTV Security Surveillance/Intrusion Detection System including but not limited to the following:

- Electric/Electro fencing with 24hrs power back up
- Car security system
- Bio-metric/Card access control
- Metal detectors
- Marine/Rig surveillance
- Automated gate system
- Smoke detector
- Intercom system installation
- Mast mounting, installation and maintenance
- Inverter/Solar system Installation and maintenance
- Computerized liquid level indicator
- Housing electrification
- Supply of CCTV monitoring systems
- Supplies/procurements of security gadgets

CAR AND HEAVY DUTY EQUIPMENT HIRING SERVICES

EDBRIME OIL & GAS LIMITED make available for hire modern equipment, cars and materials.

- Bull dozers
- Pay loaders
- Graders
- Excavators
- Swamp buggies
- Low beds
- Tipping trucks
- Grove Cranes
- Asphalt Roller
- Cranes
- Barges
- Concrete mixers
- Poker vibrators
- Welding machines
- Dumper
- Tipping trailer
- Water Tanker
- Vibrating Roller
- Plate Compactor
- Concrete Pump
- Power floating

OFFLOADING OF PETROLEUM PRODUCTS

EDBRIME OIL & GAS LIMITED manages strict and prompt delivery of petroleum products, both at the seaports, onshore and offshore operations via direct interaction with our customers. We supply and deliver petroleum products (DPK, AGO, PMS, LPFO, etc.) to our customers/clients with ultimate satisfaction and without loss of lag time.

EDBRIME OIL & GAS LIMITED have carried out supply of various petroleum products to neighboring countries from Lagos to Togo, Cameroon etc. We provide invaluable link in the customers supply chain by combining effective transportation solutions with a unique understanding of Government (National and International) and Customs regulations.
